

SH-35N

WIRELESS DIGITAL GAUGE FOR SUPERHEAT AND SUBCOOLING

The SH-35N Digital Gauge for superheat and subcooling allows system testing without loss of refrigerant—hoses and manifolds not necessary.

The free download of the SH-35N app wirelessly calculates and displays system pressure, temperature, superheat and subcooling on an easy-to-read, smart device color display.

FEATURES

- Wireless bluetooth connection to your smart device with SH-35N app
- OLED sunlight readable screen
- Sealed touch buttons protect against dirt and dust
- Rugged carrying case (included)
- Built-in valve ports to easily adjust refrigerant charge
- Range up to 400 ft. (unobstructed)
- Simplify and automate measurements
- Saves time and reduces cost
- Share screenshots right from your phone
- Easily track and store service history
- Rechargeable lithium polymer battery
- 1 year warranty

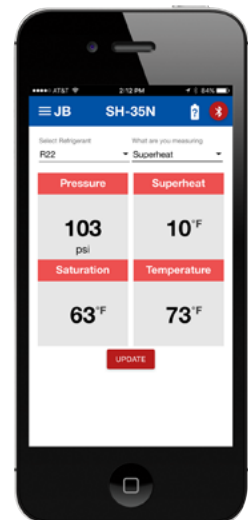

SPECIFICATIONS

Operating Temperature	14°F to 122°F
Storage Temperature	-4°F to 140°F
Pressure Range	-14.7 psi to 670 psi
Pressure Accuracy	+/- 0.5%FS
Temperature Range	-58°F to 302°F
Temperature Accuracy	+/- 1.2%FS

PART NO.	DESCRIPTION
SH-35N	Handheld digital vacuum gauge
SH-35CL	Temperature clamp
SH-56	Socks (5)
SH-35N-CS	Carrying case

AVAILABLE AS "SH-35N"
